

Abstract Management

Crowdsource Great Content

The right content can make or break your event, but finding and curating the top speakers and content is a tall order. Cvent Abstract Management allows you to simplify and efficiently run a Call for Papers and crowdsource great content. You'll be able to manage the complete process, from collecting submissions to publishing final selections into your agenda. You can be confident that you'll deliver speakers and content that educate and inspire attendees.

Abstract Management Process

Collect

Review

Decide

Publish

Collect

- Create a customized Submission Form to collect content submissions and speaker information
- Automate emails with targeted invitations, confirmations, reminders, and alerts
- Grant authors access to a portal to submit, edit, and track their submissions from any device

Review

- Assign speaker submissions to the appropriate reviewers based on topic
- Grant reviewers access to the portal to provide ratings and notes on submissions
- Have the flexibility to do blind reviews or display author information to reviewers
- Track scores and comments in real-time

Decide & Publish

- Accept or reject submissions and send automated email notifications
- Seamlessly tie accepted submissions to an event's agenda
- Publish your scheduled sessions and speakers to Cvent's Event Management Platform

Cvent continues to be dedicated to helping organizations more efficiently and strategically manage the entire event lifecycle. Integrated with the Cvent Event Cloud, Cvent Abstract Management provides a simplified and collaborative workflow to develop and publish your content, enabling you to deliver exceptional events.
